GridBee® GS Mixer Protection Plans

GS Mix-Guard & GS BeeKeeper

Medora Corporation offers two protection plans for GridBee® GS Equipment: **The GS Mix-Guard Protection Plan** and the **GS BeeKeeper Service Plan**. Both plans include **Universal Damage Repair** for items not normally covered under warranty such as tornadoes, hurricanes, vandalism, lightning, and also **Access To On-Staff Water Quality Experts**.

GS Mix-Guard Protection Plan:

The GS mixer(s) can be enrolled in the Mix-Guard Protection Plan at any time while under warranty. The mixer(s) then can remain enrolled in the program even after the warranty runs out.

A Replacement Machine Is Sent Out

After a customer informs Medora Corporation that a replacement machine is needed, Medora Corporation would first send the customer a replacement machine. This lets the customer climb the tank only once to pull the old machine out and then install the replacement machine. The customer would then send the old machine to Medora Corporation.

Shipping Costs Are Covered

If something goes wrong with the GS equipment, the faulty machine can be sent back to Medora Corporation with all shipping costs covered.

GS BeeKeeper Service Plan:

This plan includes the features of the GS Mix-Guard Plan but, also includes On-Site Crew Response when needed.

On-Site Crew Response For Operational Service Issues

We currently have a minimum of ten crews in the US and Canada for all your service needs. Each crew consists of two to four technicians trained specially in SolarBee® and GridBee® deployment, service, operation, and performance. The personnel are fully equipped with all necessary tools including water testing equipment.

Trained & Experienced Service Technicians

Our BeeKeeper service program allows our customers to take advantage of our highly trained service technicians. We have the equipment, experience, and training to ensure the machines are well maintained while following OSHA regulations. Our dedication to safety and high level of training has earned us the prestigious SHARP recognition award.
