GridBee SN Spray Units. GridBee SN Spray Units are warranted to be free of defective parts, materials, and workmanship for a period of two years from the date of purchase. The optional blower systems and control panels are covered by a manufacturer's warranty of one year from date of purchase. This warranty is valid only for use of the GridBee THM Removal System in accordance with the owner's manual and any initial and ongoing factory recommendations. This warranty is limited to the repair or replacement of defective components only and does not apply to normal wear and tear. If the factory's service crews performed the original on-site placement and startup, then this warranty also includes labor. Where labor is included, in lieu of sending a factory service crew to the site for minor repairs, Medora Corporation may choose to send the replacement parts to the owner postage-paid and may pay the owner a reasonable labor allowance, as determined solely by Medora, to install the parts. There is no liability for consequential damages of any type. The warranty that is submitted and provided with the purchased equipment is the valid warranty.

GridBee fans, blowers, control panels, and any optional accessories. These items are considered "buyout" items for Medora Corporation, and as such include a warranty against defects in material and workmanship for one year from the date of purchase. This warranty covers parts only, not labor. Parts that are determined by Medora Corporation to be defective in material or workmanship under normal use during the one year warranty period will be repaired or replaced. Shipping charges are the responsibility of the customer.

Terms applicable to all equipment. There is no liability for any consequential damages of any type, or to replace items that wear out from "normal use" in Medora's sole determination. Equipment warranties are valid only for equipment that is used in accordance with the owner's manual, and consistent with any initial and ongoing factory recommendations. Medora Corp.'s warranties change from time to time; only the exact warranty in effect when the equipment was purchased, as provided with the equipment, is valid.
